

CZECH MINERAL LOCALITIES

Compiled by R.S.W. Braithwaite, from April, 2000, from various sources, including Duda & Rejl, *Minerals of the World*, (Hamlyn Books, 1986), RSWB's collection, card index and New Minerals database.

Slovakia avoided or minimised when recognised. Clay minerals *etc.* ignored.

P = Prague; B = Bohemia; M = Moravia; SL = Slovakia; xls = crystals

Diacritical marks ignored.

At least good; very good; exceptional (If not highlit, may still be superb - no information).

"45 E5" or similar is map reference, to AA Road Atlas Europe, 1996.
