IT'S TAKEN 315 MILLION YEARS
TO CREATE A GREAT DAY OUT!

Wales' best kept secret for 315 million years!

In the heart of the Brecon Beacons, the National Showcaves Centre for Wales is one of the principality's top visitor attractions, and is the most spectacular showcaves complex in Northern Europe.

If only caves could talk... Well, at the National Showcaves Centre for Wales they really do! Our story spans millions of years, from the dawn of time to the present day, and gives you an intriguing insight into how life has evolved on Earth.

You can travel back to prehistoric times where you'll come face to face with a fearsome T-Rex and over fifty other giants in our award-winning dinosaur park. Did you know a T-Rex could eat 500 pounds or 230kg of meat in just one bite?

From the incredible archaeological evidence that's been unearthed here, we've recreated what life would have been like for your ancient ancestors in the Iron Age. How did they cook? How did they fasten their clothes without zips or velcro? And how did they create beautiful and complicated metalwork such as swords, shields and daggers?

At the National Showcaves Centre for Wales there are attractions for all the family, ranging from history in action to calm refreshment. And there are so many things for children to enjoy! As well as the Showcaves, there is the Dinosaur Park, Shire Horse Centre and not forgetting our superb adventure playground and Jurassic Karting track - offering even more fun - all undercover!
